ZERO HOUR IN MEXICAN SITUATION NEARS LEO HALTERMAN HAS

Take Chances With Law Rather Than Trust Diplomacy

WASHINGTON, Dec. 28 .-The zero hour in Mexican-American relations, set for January 1, when Mexico's new land and petroleum laws become effective, seems destined to arrive and pass without anything very serious taking place, despite the state department's veiled threats a month ago of a break in diplomatic relations.

The rapidity with which foreign oil concerns, whose holdings in Mexico are worth many hundreds of millions, have been falling into line and complying with the Mexican government's new regulations has served to allay, for the time being at least, some of the tensity in the situation.

While the state department remains unshaken in its position that the new laws are communistic in theory and confiscatory in practice, the big oil companies are, nevertheless, apparently, willing to take a chance on them and are complying with the regulation in increasing numbers.

More than fifty of the biggest I concerns doing business in Mexico, which include the principal British, American and Dutch corporations, have already acted to protect their holdings under new regulations, according to the Mexican embassy. The corporations, apparently, decided it was better to play safe with the the tortuous game of diplomacy.

Meanwhile, the state department continues to mark time and await developments. It has no comment to make on the Mexican situation and no new notes are planned, it was said at the department today.

The open hostility in congress to any break with Mexico and the no less open criticism of the department's policy in intervening in Nicaragua has also served to promote caution on the part state department officials.

The proposed senatorial investigation into the activities of American marines in Nicaragua seemed in doubt today, following a conference between Senator Borah, chairman of the senate foreign relations committee, and Secre tary of State Kellogg.

YOUTH SHOT WHEN PISTOL EXPLODES

"Curley" Hargrave, Bowersville, was shot through the first finger of his left hand sustaining a flesh wound when a .22 caliber revolver of unknown ownership was accidently discharged on the floor of the Wickersham Hotel in Jamestown where about fifty youths were gathered Saturday night.

The bullet passed through the overcoat of Fred Marchant before striking Hargrave.

The lobby was completely dark at the time as electric lights in the village failed momentarily. Deputy Sheriff John Baughn, who now lives in Jamestown, was called, but by the time he arrived the gun had disappeared and questioning of the boys in the hotel was futile as all disclaimed ownership of the wea-

THE DAMLY MURACLE

Time is the most valuable of all human possessions. It outranks have, for line is not permanent. It abides after mends are gone and wealth has vanished. Time is priceless because it is changeless. Of all other things one must save: This, and, shall pass away. Thine is the only thing diati meven conses to be.

The most precious thing in life is the 24 hours which are allutted to mankind each day. Time is the changeless possession. And the more time one has the wealthing one is. And in this, Youth is the wealthiest of all.

Time is the equal possession of markind. Without time neithing is possible. While it, all ultimps are. Buth main, poor man, begger man and thiel, all are equally blessed by the

AN INTRICATE BUSINESS

New York, it was brought out that as a rule in large modern hotels there is on the average one employee on the payroll for every room. To explain the situation for the benefit of the incredulous, the multifarious departments maintained by large hostelries are enumerated. It is set forth that all large hotels operate a furniture factory, ice cream, printing, silverplating, vacuum cleaning, power, ice, cooling and air conditioning plants, as well as decorating, repair, upholstering, Turkish bath, medical departments, a department devoted to buying, handling and care of linens, a matress and pillow making department, a statistical bureau and publicity force. Then, there is a postoffice, a drug store, information and travel bureau, cigar store, cabinet shop, tailor shop, florist shop, a garage and auto repair shop.

Running a hotel is an intricate business, apparently,

Dressing for motion pictures is one of the most difficult of a player's problems, according to Lois Wilson, Paramount actress. Dresses worn in pictures must be fashionable, and yet can depend for their style on only three qualifications. They must be of distinctive line of cut, on the material must be of broadly contrasting pattern, or, the material or trimming must scintillate. Color, the major element in most feminine costumes, can be regarded only as it will photograph in There must be an honest and intelligent forecast as to the black and white. Gambling has always been the one sore spot with Ban Johnson. Years ago he made repeated visits to Boston in an effort to clean out the gambling element that was becoming so noticeable to surrounding circuits. All Ban's efforts amounted to nothing but a breaking off of friendly relations with President Frazee of that club.

The old time pitcher, Cy Young, can vouch for any gambling during his play in Boston. He had been approached many times by "Beanmen" in an effort to throw a baseball game to their liking.

After Chase's resignation rumors were becoming persistent that certain White Sox players had been bribed by gamblers to throw the 1919 world series. It was Lee Magee who started

REGISTERED.

Tax-payers often forward their remittance to this office with neither tax bill nor description of their property. The name alone is not sufficient to locate the property in question among the 300,000 parcels taxable in Greene County. (See above, No. 5 and No. 6.)

Taxes paid to the County Treasurer are deductable in your Federal Income Tax Report.

Postage stamps will not be accepted in payment of taxes.

To collect this huge amount efficiently requires the co-operation of the tax-payer.

It should be borne in mind that this office collects annually over \$1,500,000 in taxes; To collect this huge amount efficiently requires the co-operation of the tax-payer.

This office is desirous of rendering the most efficient service possible and therefore urges that tax-payers read and comply with the above.

Tax-payers will please examine their bills and see if all their lands appear thereon, and lot numbers agree with your deed.

PENALTIES

A penalty of ten per cent is placed on all real extate taxes which have not been paid at the close of each collection.

A penalty of ten per cent is placed on all real estate taxes which have not been paid at the close of—each collection.

Taxes on property which have not been paid for two consecutive years are marked certified delinquent and are certified delinquent for four (4) consecutive years. Foreclosure proceedings for non-payment of taxes are brought after the taxes on property have been certified delinquent for four (4) consecutive years. The State imposes a penalty of ten per cent on personal property taxes if not paid before the last day allowed by law.

To answer the question, "How does milk cure?" we need to know only that it furnishes elements necessary to make new blood. Milk is one of the most easily digested and assimilated foods, containing an ample amount of substances required for the growth of tissues and organs and for the repair of worn-

When one is taking the milk diet he does not have to worry about combinations or whether this element or that element is being supplied. Every element is there in the milk in living organic form, and the sick body uses them to the best of its ability-and it is well to say that that ability is constantly increasing as the milk diet is followed day after day and week after week.

Milk is the best food in that most precarious period of life, babyhood; and it is also the best food in that other critical periodwhether of the babe or adultchronic illness. Some have said, "Milk is food for babies, not for adults." This is true, and that is just why we prescribe it for sick people. No sick person is an adult. Let him first restore his enervated, functionless, depleted, emaciated, worn-out old body to normal functioning and normal proportions before he claims maturity, and this is done in the large majority of cases more surely, safely and satisfactorily by taking the milk diet than by any other

known method Milk is a watery solution of albumin, milk sugar, and certain salts, holding fat globules in suspension. The protein and the mineral matter are in semi-solution When taken from the cow, milk has a slight alkaline reaction, but this changes rapidly to a very slight acid, due to the rapid de-

velopment of lactic acid bacilli. The albumin and casein of milk rank at the head of the list among proteins. No sugar, with the single exception of dextrose (the finished product of carbohydrate digestion) is so easily assimilated as lactrose or milk sugar. Among the minera salts of milk we find sulphur, phos phorous, chlorine, sodium, potasslum, calcium, magnesium, and iron iodine-all indispensable elements in supplying nutritive material for the muscles, brain and nerve cells and essential for building strong bones and perfect teeth.

BROTHER CONFESSES DUAL MURDER

ZERO HOUR IN MEXICAN SITUATION NEARS LEO HALTERMAN HAS

Take Chances With Law Rather Than Trust Diplomacy

WASHINGTON, Dec. 28 .-The zero hour in Mexican-American relations, set for January 1, when Mexico's new land and petroleum laws become effective, seems destined to arrive and pass without anything very serious taking place, despite the state department's veiled threats a month ago of a break in diplomatic relations.

The rapidity with which foreign oil concerns, whose holdings in Mexico are worth many hundreds of millions, have been falling into line and complying with Mexican government's new regulations has served to allay, for the time being at least, some of the tensity in the situation.

While the state department remains unshaken in its position that the new laws are communistic in theory and confiscatory in practice, the big oil companies are, nevertheless, apparently, willing to take a chance on them and complying with the regulation in increasing numbers.

More than fifty of the biggest l concerns doing business in Mexico, which include the principal British, American and Dutch corporations, have already acted to protect their holdings under the new regulations, according to the Mexican embassy. The corporations, apparently, decided it was better to play safe with the Calles government than to trust

Meanwhile, the state department continues to mark time and await developments. It has no comment to make on the Mexican situation and no new notes are planned, it was said at the department today.

The open hostility in congress to any break with Mexico and the no less open criticism of the department's policy in intervening in Nicaragua has also served to promote caution on the part state department officials.

The proposed senatorial investigation into the activities of American marines in Nicaragua seemed in doubt today, following a conference between Senator Borah, chairman of the senate foreign relations committee, and Secretary of State Kellogg.

five members of Xenia Aerle, Fra- most of his educational opportunithat organization relative to re-introduction of the Eise Old Age ance, social conditions, methods of Pension Bill before the Ohio Legislature which will convene for its 87th session in January.

The local committee is composed of Fred Haller, chairman, Otto Hornick, Marion Jacoby, Lawrence Rachford, and Harry Jordan.

Matthew L. Brown, of Springfield is secretary of the state com mittee in charge of bringing the bill before the legislature. The bill, as now planned, will

provide for the payment of a pension, not to exceed \$300 a year, to all persons seventy pears of age, or over, who have been residents of the state for at least fifteen years. Circumstances of the applicants for pensions would determine the amount to be paid each.

YOUTH SHOT WHEN PISTOL EXPLODES

"Curley" Hargrave, Bowersville, was shot through the first finger of his left hand sustaining a flesh wound when a .22 caliber revolver of unknown ownership was accidently discharged on the floor of the Wickersham Hotel in Jamestown where about fifty youths

were gathered Saturday night. The bullet passed through the overcoat of Fred Marchant before striking Hargrave.

The lobby was completely dark at the time as electric lights in the village failed momentarily. Deputy Sheriff John Baughn, who now lives in Jamestown, was called, but by the time he arrived the gun had disappeared and questioning of the boys in the hotel was futile as all disclaimed ownership of the wea-

The injury to Hargrave was treated by Dr. A. D. Ritenour, Jamestown.

RATES MAY BE TOO LOW

In many states there is periodical agitation, usually started for political effect, as to the minimum rate which a public utility should be allowed to earn. Recently the court placed a value of \$19,000,000 on the Indianapolis Water company. and found that on that value, the rates fixed by the Indiana Utilities Commission were too low.

AN INTRICATE BUSINESS

At the annual hotel exposition held a week or two ago in production; the script clerks and New York, it was brought out that as a rule in large modern hotels there is on the average one employee on the payroll for every room. To explain the situation for the benefit of the incredulous, the multifarious departments maintained by large hostelries are enumerated. It is set forth that all large hotels operate a furniture factory, ice cream, printing, silverplating, vacuum cleaning, power, ice, cooling and air conditioning plants, as well as decorating, repair, upholstering, Turkish bath, medical departments, a department devoted to buying, handling and care of linens, a matress and pillow making department, a statistical bureau and publicity force. Then, there is a postoffice, a drug store, information and travel bureau, cigar store, cabinet shop, tailor shop, florist shop, a garage and auto repair shop,

Gambling has always been the one sore spot with Ban Johnson. Years ago he made repeated visits to Boston in an effort to clean out the gambling element that was becoming so noticeable to surrounding circuits. All Ban's efforts amounted to nothing but a breaking off of friendly relations with President Frazee of that club.

The old time pitcher, Cy Young, can vouch for any gambling during his play in Boston. He had been approached many times by "Beanmen" in an effort to throw a baseball game to their liking.

After Chase's resignation rumors were becoming persistent that certain White Sox players had been bribed by gamblers to throw the 1919 world series. It was Lee Magee who started

X-Subject to School Rates from Clinton and Fayette Counties. Not received yet. The above rates do not include Special Assessments for ditches, streets, etc. Will not collect any (taxes) before January 10th, 1927 for the first half of 1926 taxes on account of the Re-appraisement in the

SUGGESTIONS TO TAXPAYERS

Taxes are payable in two installments, December 20th and June 20th. Taxes due in the first half are payable December 20th, and those due in the last half, June 20th of the following year, Thus: 1926 taxes are payable, the first half by December 20th, 1926, and the last half by June 20, 1927.

Come in early. Taxes may be paid now and the late rush avoided.

When requesting tax bills by mail, send LAST TAX RECEIPT together with a self-addressed, stamped envelope. If last tax receipt is not available, the FOLLOWING INFORMATION MUST BE SENT: Sudivision; original lot number; foot frontage; subjet number; name of street; name of city, village or township; and, name of owner on second Monday in April.

INFORMATION MUST BE SENT: Sudivision; original lot number; foot frontage; subject number; name of city, village or township; and name of owner on second Monday in April.

Taxpayers are required to first secure their tax bills before they send a remittance. Rates and valuations often change each year, and the amounts due for the new year may be different from the year before. Compliance with the above will prevent duplication.

Property sold after the second Monday in April will not appear in the new owner's name until December of the following year. Thus: Property sold by John Doe on May 15th 1926, will appear in his name throughout the entire taxing year of 1926. The new owner's name will appear on the duplicate available in December 1927.

It must be remembered that it is the duty of the County Treasurer to collect the amounts appearing on his duplicate. He is not responsible for the valuation, and has no authority to change any listing, spelling, house number, special assessment or error not caused through copying from the duplicate to the tax bill. The County Where a portion of the property listed on the current tax duplicate has been sold, no partial payment on taxes will be allowed, nor a split bill be made. It is a matter to be adjusted between the grantor and the grantee.

When calling at the County Treasurer's office for new tax bills, tax-payers are requested to present their LAST TAX RECEIPTS. Both the clerk and the tax-payer can save much time by complying with the above request.

When paying tax bills through the mail, a self-addressed, stamped envelope should be enclosed if the return of the receipt is desired. Do not send cash unless it is REGISTERED.

Tax-payers often forward their remittance to this office with neither tax bill nor description of their property. The name alone is not sufficient to locate the prop-

Tax-payers often forward their remittance to this office with neither tax bill nor description of their property. The name alone is not sufficient to locate the propy in question among the 300,000 parcels taxable in Greene County. (See above, No. 5 and No. 6.)

Taxes paid to the County Treasurer are deductable in your Federal Income Tax keport.

Postage stamps will not be accepted in payment of taxes.

It should be borne in mind that this office collects annually over \$1,500,000 in taxes; To collect this huge amount efficiently requires the co-operation of the tax-payer. It should be borne in mind that this office collects annually over \$1,500,000 in taxes; To collect this huge amount efficiently requires the co-operation of the tax-payer. Is office is desirous of rendering the most efficient service possible and therefore urges that tax-payers read and comply with the above.

Tax-payers will please examine their bills and see if all their lands appear thereon, and lot numbers agree with your deed.

PENALTIES

A penalty of ten per cent is placed on all real estate taxes which have not been paid at the close of each collection.

Taxes on property which have not been paid for two consecutive years are marked certified delinquent and are certified to the State Auditor.

Foreclosure proceedings for non-payment of taxes are brought after the taxes on property have been certified delinquent for four (4) consecutive years. The State imposes a penalty of ten per cent on personal property taxes if not paid before the last day allowed by law.

When one is taking the milk diet he does not have to worry about combinations or whether this element or that element is being supplied. Every element is there in the milk in living organic form, and the sick body uses them to the best of its ability-and it is well to say that that ability is constantly increasing as the milk diet is followed day after day and week after week.

Milk is the best food in that most precarious period of life. babyhood; and it is also the best food in that other critical periodwhether of the babe or adultchronic illness. Some have said, "Milk is food for babies, not for adults." This is true, and that is just why we prescribe it for sick people. No sick person is an ad-Let him first restore his enfunctionless, depleted, emaciated, worn-out old body to normal functioning and normal proportions before he claims maturity, and this is done in the large majority of cases more surely, safely and satisfactorily by taking the milk diet than by any other known method

Milk is a watery solution of albumin, milk sugar, and certain salts, holding fat globules in suspension. The protein and the mineral matter are in semi-solution. When taken from the cow, milk has a slight alkaline reaction, but this changes rapidly to a very slight acid, due to the rapid de-

velopment of lactic acid bacilli. The albumin and casein of milk rank at the head of the list among proteins. No sugar, with the single exception of dextrose (the finished product of carbohydrate digestion) is so easily assimilated as lactrose or milk sugar. Among the minera salts of milk we find sulphur, phos phorous, chlorine, sodium, potasslum, calcium, magnesium, and iron iodine-all indispensable elements in supplying nutritive material for the muscles, brain and nerve cells and essential for building strong bones and perfect teeth.
